ANNIMESH SASMAL

B.Tech Computer Science & Engineering | Applied Machine Learning & Production AI Systems
Jatni, Odisha, India | +91-7847083554 | annimesh.sasmal.ak@gmail.com
Google Scholar | GitHub | LinkedIn

SUMMARY

B.Tech CSE student (CGPA 9.22/10) with five peer-reviewed publications spanning classical ML (XGBoost/boosting), deep learning, and computer vision, plus hands-on experience taking an ML system from prototype to production during a software engineering internship. Comfortable across the full ML lifecycle — data pipelines, model development, SQL-based analysis, and Docker-based deployment — sharpened through independent research and 10+ national hackathons. Looking to apply applied ML and production engineering skills to build and ship real-world ML systems.

EXPERIENCE

Software Engineer Intern — SkillRevelation India (OPC) Pvt. Ltd. *May 2026 – Jun 2026*

- Took a multi-agent AI grading system from prototype to production, owning the full pipeline — data flow, model orchestration, API design, and deployment — as the sole engineer on the feature.
- Built and tuned a structured evaluation pipeline for handwritten submissions using vision models, focusing on consistency, monitoring, and reviewer-in-the-loop validation.
- Worked across the model-to-production boundary end-to-end, directly applicable to shipping and maintaining ML services in a live environment.

EDUCATION

Centurion University of Technology and Management, Bhubaneswar *2023 – 2027*
Bachelor of Technology, Computer Science & Engineering | CGPA: 9.22/10

Carmel English Medium School, Khurda Road *2023*
Senior Secondary (Class XII)

E.Co. Railway Mixed Higher Secondary School, Khurda Road *2021*
Secondary (Class X)

TECHNICAL SKILLS

- **Languages:** Python (Advanced), JavaScript, C++, Java, HTML/CSS
- **ML/DL:** Scikit-Learn, XGBoost (boosting), PyTorch, TensorFlow, Pandas, NumPy, Computer Vision, NLP
- **Data & Deployment:** SQL (MySQL, PostgreSQL), Docker, Git, GitHub, Linux, VS Code, Jupyter
- **GenAI (working knowledge):** LLM prompting, agentic pipelines
- **Other:** Technical Writing, Team Leadership, Problem-Solving

PUBLICATIONS

Full list: Google Scholar Profile

- Enhanced Seizure Prediction Using XGBoost & EEG — IEEE, 2024 (classical ML / boosting)
- AI-Powered Potato Plant Disease Detection — Research Square, 2025 (computer vision)
- Feline Emotion Recognition Using Deep Learning — IEEE Xplore, 2025 (computer vision)
- Canine Sentiment Analysis Using Deep Learning — IEEE Xplore, 2025 (computer vision)
- YouTube Sentiment Analyzer (YSAM) — ICIIBS, 2025 (NLP)

HACKATHONS & COMPETITIVE PROGRAMMING

- Generative AI Hackathon (Anhad'25), IIT Jammu — built generative-modeling solutions with Team Byte Cryst.
- India AI Impact Buildathon, India AI Impact Summit 2026 (GUVI x HCL) — national AI innovation challenge.
- Hack4Health, IIIT Delhi — built a health-tech solution in a 24-hour sprint.
- Odoo Hackathon 2025, Gujarat — advanced through multiple rounds building on the Odoo platform.
- Zenotrone Hackathon 2025 (DevSomeware); Hackfest & Hogwarts Hackathon, IIIT Bhubaneswar.
- Adobe India Hackathon; HackChrono, Chandigarh University; Hack2Skill x GeeksforGeeks (CUTM).

CERTIFICATIONS

- Artificial Intelligence with Python — E-Cell, IIT Madras (with Coincent.ai)
- Machine Learning & AI specializations — Google, Kaggle, GeeksforGeeks
- Certificate Portfolio — view all participation & skill certificates
